Comment. The present information confirms that the units previously stationed in the Flak Maserne and Pionier Kaserne are no longer in their quarters. Another source reported that the 63d Cds Tank Negt of the 10th Gds Tank Div departed from the Fionier Kaserne for Letaling Heath during the period from 14 to 17 April 1952 and that the units of the 3d Gds AT Arty Brig (US) left the Flak Kaserne for Altengrabow on 24 and 25 April.

Comment. On 11 April 1952, another source reported that the General feld-zeugneister Kaserne was only lightly occupied.

The information supplied by the two sources of the present report tends to indicate, however, that the barracks installations were again partially occupied by units of the 12th Rv Low Arty Brig (US) as of 1 May 1952. This corresponds with observations made in 1951, when the units of the brigade were rotated to the Altengrabow firing range for short-term practices.
